WHAT IS MODEL INTERNATIONAL CRIMINAL COURT?

Model International Criminal Court (MICC) is a simulation of trials before the ICC for high school and university students from all over the world.

The International Criminal Court (ICC) is the world's most sophisticated mechanism for the protection of Human Rights and rules of warfare. MICC is a project that aims to teach core principles of the ICC to high school and university students.

MICC has been growing successfully since 2005 and we owe this to the quality of the training, the focus on relevant topics, and the unique experience that MICC provides.

The working language is English, and every session is comprised of training, discussions, and workshops with a simulation of the ICC process – preparation, trial, and verdict.

Bringing in students from all around the globe, MICC fosters intercultural dialogue and understanding among students of various national and social backgrounds. The goal of this work is to encourage students to study human rights and humanitarian law.

More information about MICC are available on the website of the project:
